**4. Vacant Lot @ 2652 Perdue Avenue, Cols., OH 43211: Preliminary presentation for pending Variance Representative Jon Styer , Post Up Properties, LLC**

Discussion. Styer discussed building 8 units, which is zoned residential. Needs variance to build multi family residential, each unit is 1260 sq.ft. The eight units is not set in stone if eight units are not feasible but would like to build eight units, and it is privately funded. Does not have ADA units, but access on first floor, bathrooms are on the 2<sup>nd</sup> floor.

The units are two story townhome styles. Prefers to do more units than less. Commissioner Porter and Davis concerned with green space in such a tight space, eight units on half of acre. Styler agrees the space is tight. Chair in favor of the development of multi-family with less units. Styler opened to less units to have more green space. Commissioner Porter said Styler may have an issue with not have a unit ADA. Commissioner Buenconsejo said city requires 20%, which is one unit being ADA.

Motion to recommend early of adoption c2p2, Commissioner Moore. All in favor. Commissioner Porter unable to vote.
